

Juuway – the team

Tailors – Production

Our tailors are some of the best in Taiwan and very well experienced in manufacturing of all kinds of fashion, especially outer garments. They love to sew new styles and different fabrics and are curious which order will come tomorrow. Sometimes, if there is a very special design made by Juuway members, they make a top ten list and bet if other members will try to copy that design. Since all tailors are female they are looking forward to get a male colleague soon...
